THE HIGHEST-RISK SCENARIOS REMAIN UNTRAINED.

Train, whats impossible, too dangerous or expensive

- New threats emerge faster than training evolves
- Equipment changes faster than experience is built
- Real-world scenarios can’t be safely replicated

SOLUTION: THE RAMROD XR SANDBOX

A Platform for Artificial Experience

Experience Before Reality

- Train for events that haven't happened yet
- Build instinct without real-world risk
- Replace "first time" with prepared response

Hyper-Mobile Deployment

- Deploy anywhere in minutes
- No fixed infrastructure required
- Based on market availabe Hardware

Unlimited Scenario Access

- Simulate rare, extreme, or evolving threats
- Adapt scenarios in real-time through editor
- Train across environments and equipment

INVESTMENT HIGHTLIGHTS

Why Invest in Ramrod XR?

$10–11B Annual Market

Global XR Defence Training market growing at 41.8% CAGR through 2033

Tier-1 Customer Validation

Bundeswehr, Dräger & German Ministry of Justice are paying clients

Dräger Partnership

Dräger (70% market share globally) exclusively sells Ramrod FF platform

Fully Integrated XR Platform

Only system combining proprietary hardware + software + AI analytics + scenario marketplace

Multi-Layer Revenue

Hardware (€150K–€2M/system), SaaS licensing, scenario marketplace & franchise CTC model

Award-Winning Innovation

Dubai Police Innovation Award 2022 Recognized globally by military & law enforcement

Global Challenges

+12% global defence budgets (2024–25); German Army expanding 180K – 500K soldiers by 2035

Eperienced Leadership

Our experience Leadership is redefining how high-pressure professionals prepare for the real world.

180K-500K

German Army Personnel
2026 - 2035

"Tanks can be ordered. Personnel can't."

Every country has 3 primary **branches:**

Military	Police	Fire + Emergency

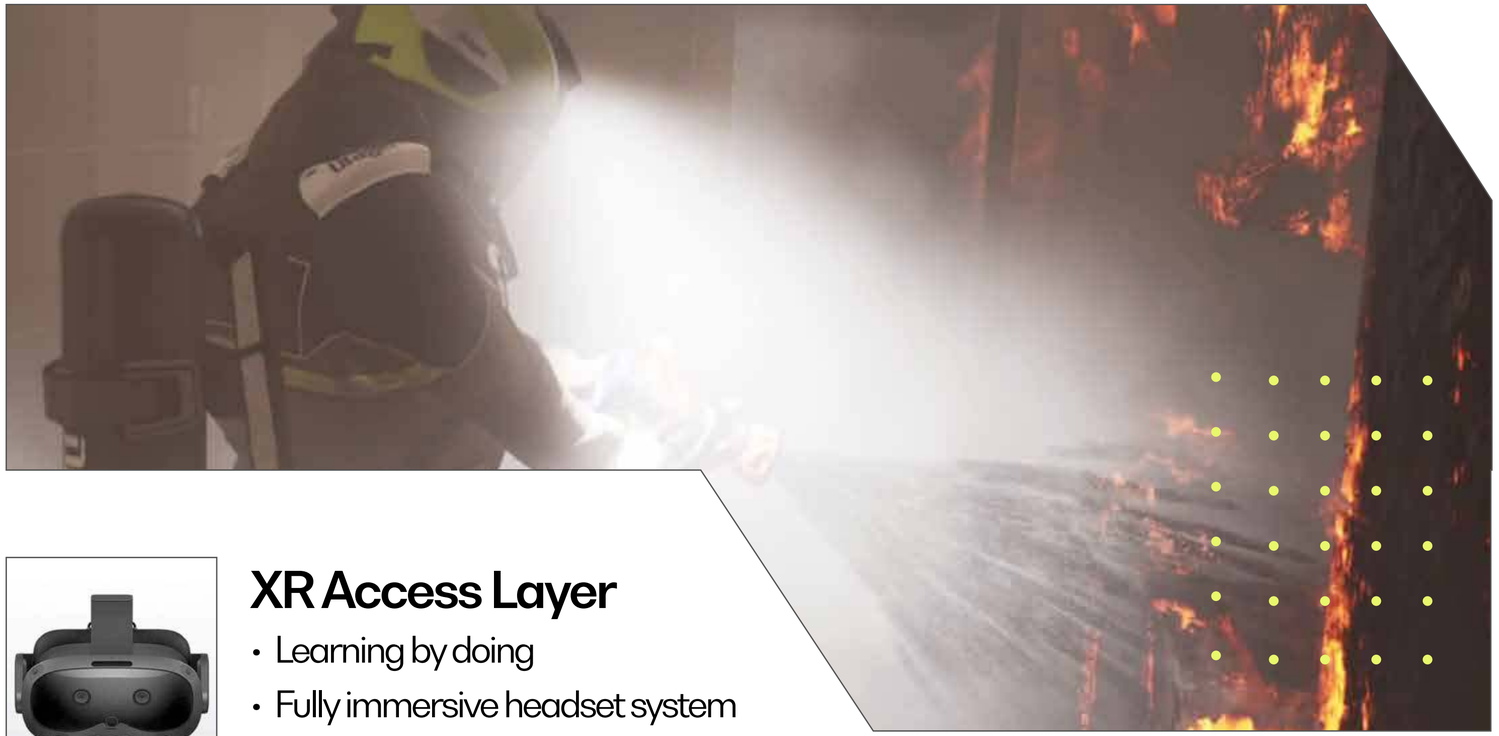

For example the United States has:

1.3M Soldiers	0.7M Police	1M Firefighters
1900 Systems $400K each p.a. $760M AAR	3800 Systems $300K each p.a. $1.1B AAR	800 Systems $100K each p.a. $80M AAR

EVERY country has similar infrastructure.

THE SYSTEM ARCHITECTURE:

A fully integrated XR Ecosystem

Simulation Engine

- Real-time environment control
- God-Like Manipulation
- Scenario Tools & Marketplace

XR Access Layer

- Learning by doing
- Fully immersive headset system
- Replaceable & Future-proof

Tracking System

- Spatial localization
- Rapid deployment in minutes
- Works in any environment

Interaction Layer

- Weapon simulation + physical tools
- Recoil, malfunction, ballistics
- True-to-life engagement

Analytics Layer

- Full session capture + replay
- Performance tracking
- AI-ready datasets

BUILT ONCE. DEPLOYED EVERYWHERE.

One Platform. Multiple Markets.

The same infrastructure unlocks multiple high-value markets, without rebuilding the system. This is not a niche product. It's a platform with multiple TAM layers.

Military

Police

Fire + Emergency

Proven Core Markets:

Mission-critical training where failure is not an option.

Home Defense

Corp. Cyber Training

Entertainment

Expansion Markets:

New revenue layers powered by the same system.

HARDWARE STARTS IT. SOFTWARE SCALES IT.

A Multi-Layered revenue engine

LAYER 1

Hardware

Upfront Revenue

- Turnkey system deployment
- Flexible leasing & financing
- Deployment & integration

LAYER 2

Software

Predictable Revenue

- Enterprise platform licensing
- Continuous software upgrades
- Scenario & simulation access

LAYER 3

Network + Data

Compounding Revenue

- Analytics & performance insights
- Global scenario marketplace
- Training centers (CTC model)

ARTIFICIAL EXPERIENCE, ENGINEERED

Reality is now Programmable

RAMCORE turns environments, physics, and human interaction into a fully programmable training system.

Build on Demand

- Urban, indoor, or battlefield scenarios
- Infinite variations, created by the customer
- No physical constraints

Train the Untrainable

- Rare, dangerous, or impossible scenarios
- High-risk without real-world exposure
- Repeat, reset, refine instantly

Immersive Simulation

- Real-world physics, ballistics, and interaction
- Objects, vehicles, systems - fully interactive
- Behavior and scenario dynamics

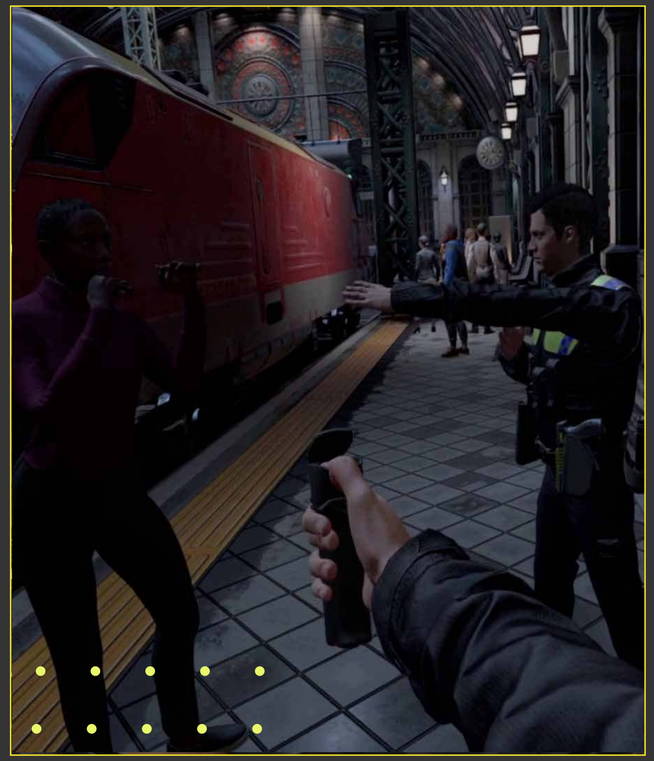

Real-Time Control

- Modify environments mid-session
- Escalate, adapt, or branch scenarios live
- Instructor or AI controlled

WE ARE BUILDING THE MATRIX

ROBLOX FOR PROFESSIONALS

3 Forces Driving the Shift

- Budget Expansion: more spending
- Technology Complexity: more training required
- Risk & Regulation: less real-world exposure
